HungerRush™

Order Notifications

Delight Customers and Streamline Operations

HungerRush provides automated, customized order updates via text to keep your customers informed at every stage of their delivery or pickup order.

Delight your customers with great experience and free up staff to focus on their most important tasks. Setup is simple, so you can start benefiting from streamlined, efficient operations right away.

Key Benefits

Keep Customers Coming Back

Provide clear, timely updates that build trust and improve the overall experience.

Faster Service, Less Waiting

Reduce wait times and ensure the right order goes to the right customer.

Streamline Operations

Alleviate staff stress by automating order updates, allowing them to focus on core tasks.

Data Sheet

Key Features

Automated Order Status Updates

Send real-time text notifications to update your customers on the status of their order throughout the process. Expanded messaging options available to customers with KDS or Driver Track.

Customizable Messaging

Tailor messages to match your brand voice and provide essential information to customers.

Easy Setup

Expert setup to get you going quickly and seamlessly integration with the HungerRush POS platform.

“Order text notifications have been a major game changer for us. Customers love getting real-time updates on the status of their food orders. Our pickup orders are served fresher and more efficiently which saves us time, money and hassle.”

Joel Mills,
Co-Owner Piesanos
