POINT OF SALE SOLUTIONS

FINE DINING **QUICK SERVICE** NIGHTCLUB **DELIVERY**

# ***rpower***

No matter if you operate one store or one hundred in any restaurant vertical, the backbone to your business is your point of sale software. RPOWER provides a feature-rich solution that has the capability to connect to over 100 integration partners, making it easy to combine everyday business with accounting, employee management, online ordering, and more. With the right POS solution, your restaurant has the tools it needs to overachieve in service by delivering an exceptional customer experience, which is crucial to any industry.

## **RPOWER FEATURES**

### **SECURITY**

RPOWER security exceed the standards set forth by the Payment Card Industry Security Standards Council to ensure the safe handling of all potentially sensitive information. A PA-DSS Validated Application, RPOWER never stores credit card numbers, expiration dates, or card holder data unencrypted while still providing key features such as Card on File, Offline Processing, Incremental Auth and Pre-Authorizations.

### **MOBILE POS**

Split checks, create tabs, and print/email receipts all from select smart devices that connect to RPOWER POS. Your traveling device will speed up service and provide the enhanced customer experience that builds loyalty.

### **KITCHEN DISPLAY SYSTEM**

Display all tickets in the kitchen with RPOWER's Kitchen Display System. Illegible, lost, or forgotten tickets will be a thing of the past. Tickets are customizable with color coding, number of displayed tickets, font sizes, and more.

### **OFFLINE MODE**

In the event of a personal network outage, RPOWER ensures that your business never stops. Our intelligent technology provides industry-leading offline capabilities to keep your business running smoothly, no matter your internet status.

### **RESTAURANT INVENTORY**

Right from your RPOWER terminal, record inventory that automatically syncs to your POS system. Collectively track inventory, prices, and supplies all in one place.

# INDUSTRIES

RPOWER provides restaurant owners the features they need to put their services above the rest. Key features catered to each vertical allow management to customize their operations to fit their specific needs.

**FAST CASUAL:** With any quick service restaurant, it's important to offer the best service without sacrificing quality. RPOWER will arm your restaurant with in-house advertising with pole displays, drive-thru capabilities, and a multitude of additional features that make an impact on sales.

**BAR & NIGHTCLUB:** With a system that is as fast as foot traffic at peak times, you no longer have to worry about keeping up with the crowd. Our core bar and nightclub features will prepare you for smooth sailing: spotter displays, pre-authorization, high speed credit card processing, blind close, and more.

**TABLE SERVICE:** With features like a fully customizable menu, hold & fire, tableside ordering, and more, our seamless POS solution ensures that you are giving your guests the best possible experience.

**PIZZA POS:** RPOWER item modifiers allow you to build a pie from scratch and add toppings in one touch. As you build the pizza in your POS system, RPOWER will calculate the cost, deduct from your store's inventory, and auto-add to the customer bill. Add extra cheese, BBQ drizzle, extra pizza sauce on the side, and more with just a few taps. One-tap pizza splitting allows for easy topping distribution on portions of the pizza.

**ENTERPRISE SOLUTIONS:** Take control of your enterprise with RPOWER POS and connect all of your key technologies. Centralize your menu management, consolidate your gift & loyalty offering and sync store data with all of your business intelligence to take operations to the next level.

# TAKE A PIECE OF YOUR BUSINESS WHEREVER YOU GO

## REPORTING & ANALYTICS

RPOWER's cloud offers real-time reporting across web reports, dashboard and a mobile app, enabling you immediate access your data 24/7. Stay connected and in control of your business and your employees with custom alerts and real-time monitoring from anywhere.

## INTEGRATIONS

### OVER 100 TO CHOOSE FROM

#### ACCOUNTING & OPERATIONS

RPOWER ensures your restaurant accounting software is always up to date by directly integrating to a selection of accounting solutions. RPOWER allows you to easily sync and streamline day to day operations such as labor, inventory, and more.

#### EMPLOYEE MANAGEMENT

RPOWER validates employee schedules with our partners to ensure employee time clock compliance. RPOWER also shares sales data, giving restaurant managers the information needed to properly forecast labor based on sales.

#### GIFT & LOYALTY PROGRAMS

Connect to one of our many gift and loyalty integrations to boost sales, connect with your customers, and reward your regulars. Allow your customers to look into their rewards balance and send gift cards to their friends and family.

#### PAYROLL ADMINISTRATION

Streamline your payroll by having RPOWER post your data directly to your provider of choice including hours worked, overtime, tips and more.

#### ONLINE ORDERING

Enhance your customer's experience by providing another simple and convenient way to place their orders. By integrating with one of our online ordering integrations, you can attract a whole new market of customers.
