

HungerRush helps restaurants compete in the toughest business on earth. Our integrated restaurant management system empowers you to engage guests, master operations, and market like a pro.

And since HungerRush is backed by a dedicated US-based support team, you'll always be ready for the rush.

Operations, mastered.

Marketing, made easy.

Restaurant, reimaged.

Digital Ordering

Reach your guests while gaining insights on your customers buying habits.

Loyalty & Rewards

Easily identify your best customers by frequency and spend.

Tablet

Grow your business with tablet functionality that meet customer demands.

Gift Cards

Generate immediate revenue while securing future orders with non-perishable and e-Gift cards.

No Contact Messaging

Guests can communicate where and how they want their food delivered without human contact.

Curbside Alerts

Service your customers on their terms with curbside notifications to support guests for easy pickup.

Mobile App

Bring even more smiles and sales with our integrated mobile app experience.

Driver Management

Track drivers progress, increase efficiency and throughput, save on labor cost and drive repeat business.

Delivery On-Demand

Leverage 3rd party driver services for on-demand delivery options to your guests through our partnership with DoorDash.

Reporting & Management HUB

Measure business health with real-time above store reporting and actionable insight through our reporting management HUB.

Digital Menu Boards

Create a high quality guest experience by displaying beautiful digital menus.
