

OrderAI Talk

More sales. Happy guests.
Phone orders made easy.

Never Miss Another Phone Order

OrderAI Talk is an AI-powered phone ordering solution designed for high-volume, multi-location restaurant brands. It answers calls instantly, takes orders accurately using your menu, and sends completed orders directly to the POS—helping brands capture more phone revenue while keeping teams focused during peak hours.

93% Guest Satisfaction Rating*

OrderAI Talk delivers a natural, frustration-free experience that guests love.

Why Restaurants Love It

Capture More Phone Revenue

Handles simultaneous calls so missed calls and busy signals don't cost you sales.

Keep Teams Focused on the Rush

Reduces phone interruptions so teams stay focused on service and food prep.

Never Miss an Upsell Opportunity

Suggests relevant add-ons during ordering to boost check averages.

Reduce Costly Errors and Remakes

Guides guests step-by-step through the order to capture every required detail.

Improve Guest Satisfaction

Gives guests a reliable, fast, and secure phone ordering experience they'll love.

Ensure a Unified Brand Experience

Delivers the same on-brand ordering experience across all locations.

*Based on verified post-order satisfaction surveys of OrderAI Talk callers.

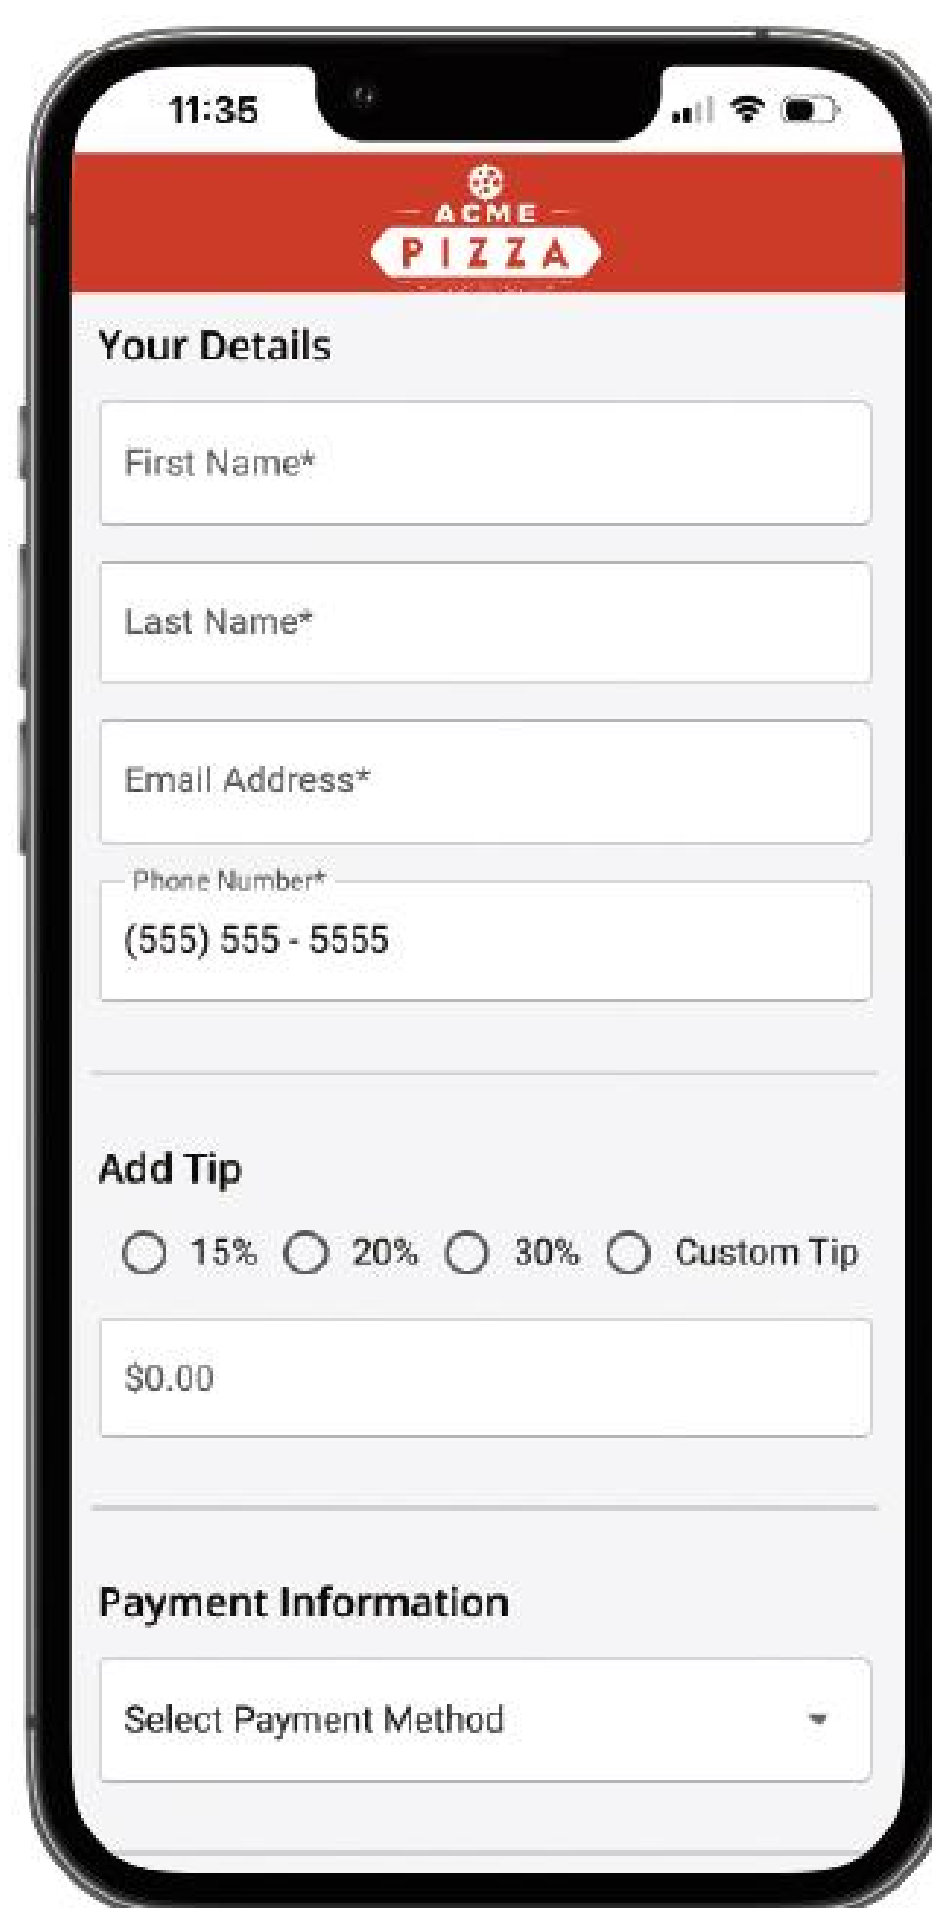

How It Works

OrderAI Talk answers and guides the guest through their order.

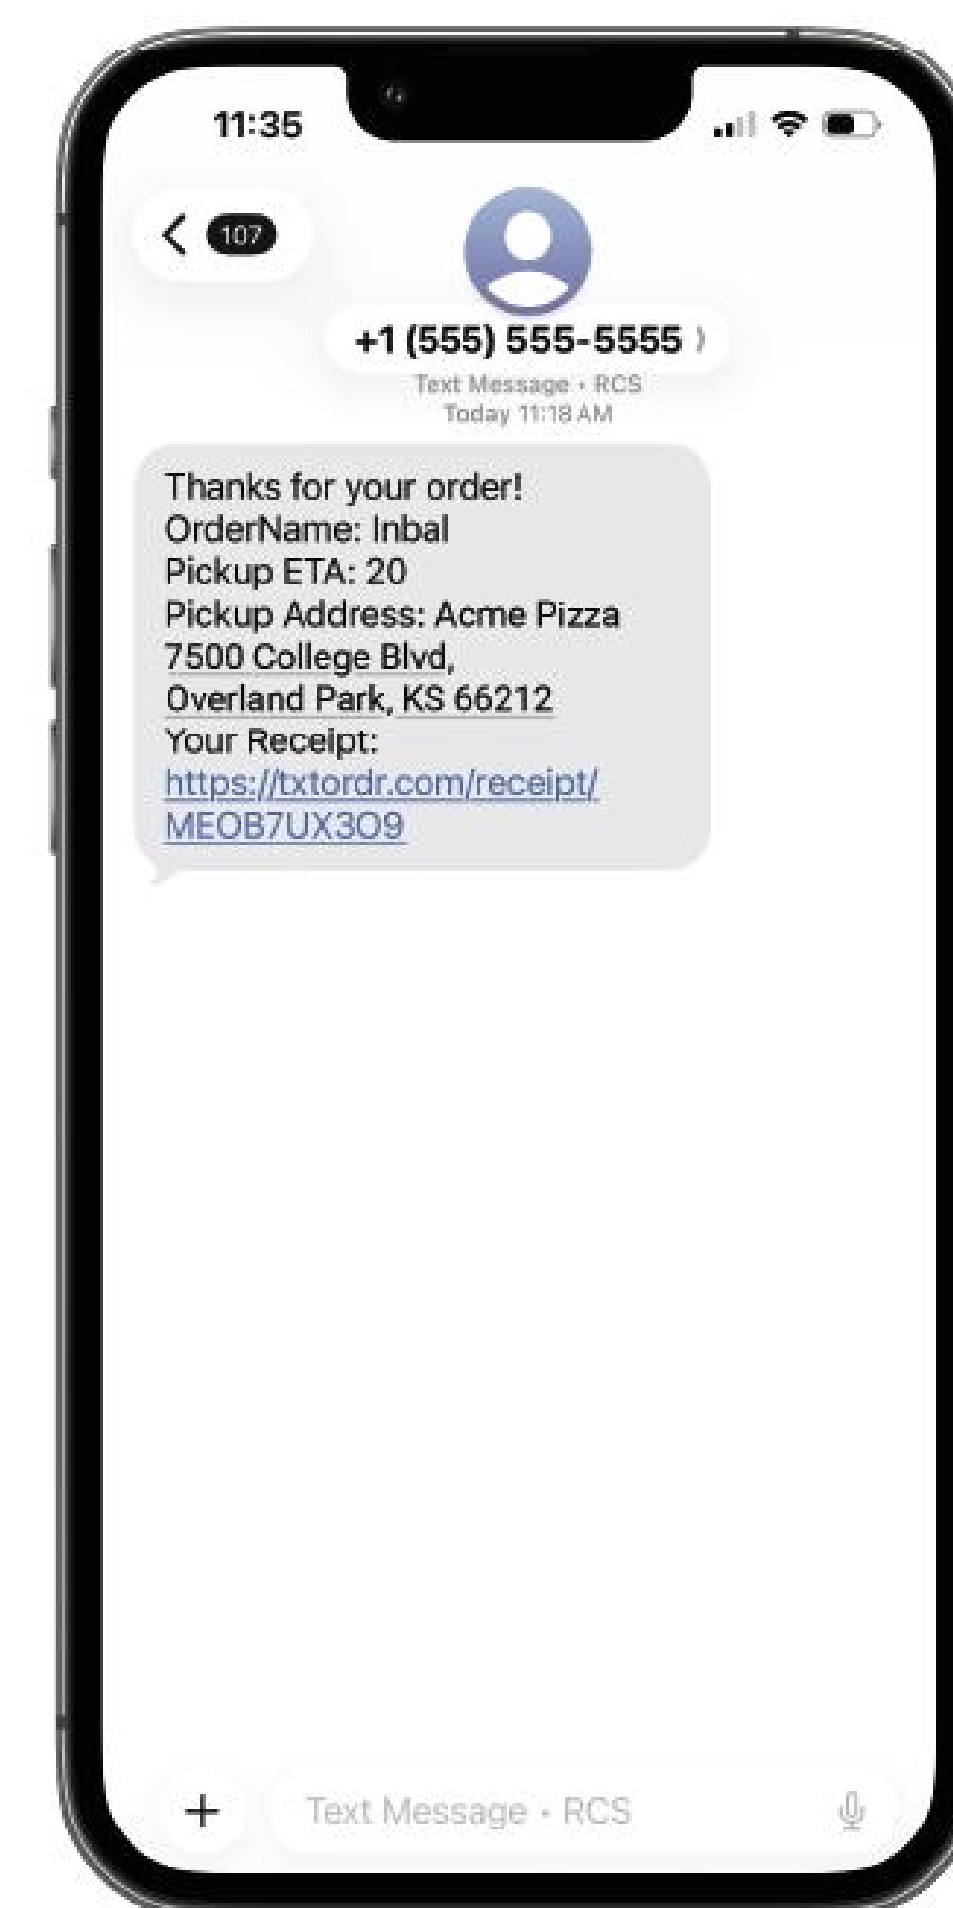

Guest receives a secure SMS payment link.

Guest reviews the order and pays through secure checkout.

Order flows into the POS for same-day pickup or delivery.

Guest receives an SMS with ETA and receipt link.

Key Features

- **Conversational AI Menu Ordering:**
Understands natural speech & accents, even with noise & mid-order changes.
- **Simultaneous Call Handling:**
Answers unlimited calls at once, all day, every day.
- **Complex Menu Setup:**
Supports the required modifiers, sizes, and styles from your online ordering menu.
- **Caller Recognition:**
Recognizes returning guests for automated address lookup and card-on-file payments.
- **Brand Customization:**
Multiple natural voice options and support for brand-specific names.
- **Flexible Payments & Gratuity:**
Pay-in-person or secure SMS payment links with tip prompts, plus guest receipts.
- **Native POS Integration:**
Orders pass to the POS in seconds, directly flowing into pickup or delivery queues.
- **Smart Escalation Support:**
AI & human-powered oversight to reduce friction and transfers to the restaurant.

About HungerRush

HungerRush is a leading provider of integrated restaurant technology solutions. We partner with restaurants of all sizes and cuisine types—from single locations to multi-unit brands. Backed by restaurant, technology, and marketing experts who are always by your side, our cloud-based POS Platform connects digital ordering, delivery, guest engagement, kitchen operations, reporting, marketing, and payment processing in one system.
