

Meet Customers Where They Are for Every Order

Cut friction, save time, & grow revenue when guests order from anywhere, & your system connects them seamlessly.

Digital Ordering Took Off—But Not Every System Kept Up

Digital ordering makes up 40% of restaurant sales. Owning it directly protects profits, data, and brand experience—while giving guests the speed and consistency they expect from every digital touchpoint.

60%

Of QSR sales now come from digital orders.

83%

Of guests are more likely to reorder when their online ordering experience is fast and reliable.

70%

Of consumers expect the same brand experience across all digital touchpoints.

The HungerRush Digital Ordering Solution

HungerRush digital ordering meets guests where they are. Every experience encourages high value carts for you and the right order for your guests. Everything syncs directly to your POS for full control.

75%

Of HungerRush restaurants see high online order conversion rates.

29%

More new guests converted with our online ordering. Proof that it's easier to order with HungerRush.

17%

Returning users come back more often than other online ordering systems to place a repeat order.

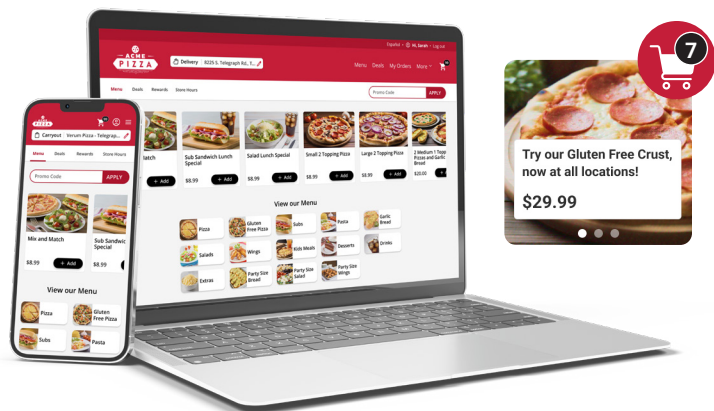

Trusted by growing and enterprise brands to keep menus & promos aligned across channels.

Proven to deliver accuracy across channels—so you can focus on guests, not glitches.

Built for growing & multi-location brands to increase direct sales, improve margins, and strengthen guest loyalty.

Consistent Everywhere

Deliver a unified, branded experience across web, mobile app, and third-party marketplaces—all connected through one HungerRush platform.

- Deliver consistency guests recognize across channels.
- Align menus and pricing to protect brand trust.
- Connect all orders through POS for real-time accuracy.
- Access insights from one reliable source of guest data.

Speed and Accuracy

Reduce human error and streamline workflows by eliminating manual re-entry or tablet juggling. Every order—regardless of source—hits your POS instantly.

- Eliminate manual entry with marketplace integrations.
- Ensure dependability with a 99.99% order success rate.
- Keep menus accurate with item, price & availability sync.
- Cut costly mistakes up to 75% with fewer errors.
