

Third-Party Delivery Integrations

Orders Go Straight to the Kitchen

Eliminate Third-Party Order Inefficiencies

Ready to eighty-six double order entry and reduce order errors from your third-party ordering channels? HungerRush's DoorDash and Uber Eats integrations make running your restaurant that much easier!

With these seamless integrations, DoorDash and Uber Eats orders bypass the tablet and flow directly into your HungerRush POS, giving you the keys to:

- Remove the burden of having to manually re-enter orders into the POS
- Easily update your menu, images, pricing, and store hours across one or multiple locations
- Pause orders at your discretion (such as during high-volume times)
- Extend your reach and supercharge new customer acquisition
- Simplify operations (happier, more productive staff!)

Key Features

- ✓ **POS Integration**
Send DoorDash and Uber Eats orders directly to your HungerRush POS, eliminating the need for tablets and manual order transfers.
- ✓ **Menu Sync**
Automatically sync menu and pricing from your HungerRush POS to the DoorDash and Uber Eats marketplaces.
- ✓ **Order Sync**
Any special instructions on your incoming third-party orders (food prep specifications, delivery preferences, deferred orders, etc.) will show in your HungerRush POS.

Ready To Get Started?

Setup is fast and easy with a hassle-free onboarding experience that's ready to go when you are.

About HungerRush

HungerRush is a leading provider of integrated restaurant solutions. HungerRush 360 is our flagship Cloud POS system that makes it easier to delight guests, drive loyalty, and manage restaurants from anywhere. The all-in-one system integrates digital ordering, delivery, customer engagement, restaurant management, and payment processing features with flexible software designed to give operators of all sizes more insight into their customers, more control over their operations, and more power to profitably grow their business.
